

## Web Developer/Software Engineer

O'Shaughnessy Asset Management (OSAM) is seeking an experienced and ambitious Web developer with a strong background in ASP.net/Microsoft MVC to join our team. Candidates should have knowledge and ability to build highly distributed web applications and robust desktop software, with mobile development being a plus. The position provides an excellent opportunity for candidates eager to gain exposure to the financial services industry as a technical professional. Candidates will also be responsible for developing and supporting a broad range of financial applications including client/server web portals, portfolio construction software, performance reporting, etc. OSAM is a firm that values the development of its employees, and the hired candidate will receive ongoing mentoring from experienced industry professionals, and opportunities for career advancement within the field of financial services.

### Competencies:

- 3 to 5 years+ of experience with ASP.Net, Microsoft MVC, HTML, CSS, Javascript (jQuery), Visual Studio, C# and SQL Server
- Ability to manage, plan, and prioritize multiple concurrent projects in a fast-paced environment
- Proven experience in systems solution development from design through production and on-going maintenance/upgrades
- Experience with Python, API and Microservices development, Web Services, WCF, and Service Oriented Architecture a plus
- Understanding of Software Development Life Cycle and Agile methodologies
- Excellent communication, math, and problem-solving skills
- Computer science degree or relevant experience
- Experience in finance a plus but not required
- Any experience with Azure would be huge plus
